

ReCap ASáp: regaining capacity in a changing Sápmi

The Interreg Aurora project **ReCap ASáp: Regaining capacity in a changing Sápmi** kicked off in September 2023, and the first months have been spent preparing for the rest of the project period.

At the end of October 2023, the project team met in Roavvenjárga. Here, communications and the Boahhteáiggi jurdagat toolkit were on the agenda. The development and adaptation of the toolkit to a Sámi context will be of help for future strategic thinking in Sápmi.

The Saami Council staff have been able to test out some of the Boahhteáiggi jurdagat methods, and they will be further tested out by the Knowledge Hubs.

More information about the Knowledge Hubs will be available soon.

As a part of the Interreg Aurora programme, the project has appointed eight Social Development Goals to guide some of the project's social, environmental, and economic responsibilities. These will be reflected in the project's communication and activities.

Save the date!

We are in the midst of planning a Sámi arena, which will take place **9.-15. June 2025, in Guovdageaidnu**, and hope to see as many of you as possible!

It will be an expansive programme, gathering actors from the whole of Sápmi, and with the aim of engaging our society in debate on solutions for the future, policy-making and facilitating knowledge sharing.

More information about the programme will be shared soon!

You will find more information about the project and the work packages on our website:
